

# COALITION *of* CANDIDATES

AMERICANS UNITED FOR ELECTION CONFIDENCE

*Coalition of Candidates, in association with The America Project & Voter GA, is a Constitution-centered, non-partisan compact of local, state, and national stakeholders focused on election integrity and transparency.*

FOR IMMEDIATE RELEASE

February 25, 2025

## **Securing Federal Elections & Restoring Confidence in the American Voting Process**

President Trump is speaking openly about how we must return to paper ballots, same day voting and counting, proof of citizenship, and voter identification. He is calling for state Governors to do the same.

We now know, without doubt, that malicious foreign actors did, in fact, alter the results of the 2020 and 2022 elections, and attempted the same in 2024, by using software and hardware specifically designed to rig elections. But it was not just foreign actors, domestic actors participated in these criminal activities as well. Over the past four years these facts have been substantiated through audits, investigations, indisputable evidence, lawsuits, and thousands of affidavits, which remain, in fact, bearing the truth, in spite of the mainstream media spin. This is a serious national security threat.

The Department of Justice, under the leadership of Attorney General Pam Bondi, is now in possession of the aforementioned evidence, which has triggered a formal investigation.

Secure elections are a supremely critical infrastructure of a nation. Americans must become well-informed about these facts so we can collectively help to neutralize the threats.

To this cause, as a Coalition, and in association with The America Project and VoterGA, we have drafted two Executive Orders (EO)—Issuance EO and Implementation EO—which outline a set of essential standards and secure election protocols that must abide in order to secure our elections; and which, if adopted by President Trump, would begin the elimination of electronic voting machines as a first step to securing and restoring integrity to the American election process.

We contend that no other issue facing our nation today is more important than secure elections.

We encourage you to share this information through your networks (podcasts, social media, family, friends, etc.). You can learn more and download the EO documents by visiting: [www.americaproject.com](http://www.americaproject.com).

Thank you for your tireless commitment to assure that truth, justice, election security and transparency is restored to our Republic.
